

Dance club

A club is an association of people united by a common interest or goal. A service club, for example, exists for voluntary or charitable activities. There are clubs devoted to sports, social activities, and hobbies. The purpose of Dance Club is to foster a community of students from all majors interested in learning the art of dance, and to teach dance and most importantly to have fun. The dance club of Rajshahi Cantonment Public School and College try to serve this purpose. Our dance club is held every Thursday after school from.. To..... We use room no: 405 for this purpose. The students of Secondary level attend in this club. The activities of this club have started from 2018.

Every week we meet and work together to create and adapt dances. Each member has the opportunity to showcase their dance skills and teach the other members how to improve their own skills. We cover a variety of different types of dances. The members of this club perform in different programme arranged in different National days throughout the year. They also perform in different district and National level competition.

Dance club is a way to keep the students fit, energetic and creative. Guidelines state that every child should have at least 60 minutes of physical activity a day; what better way to do this than with dance!
